

How your City Utility Bill is calculated:

The Utility Maintenance Department drives through the neighborhood and radio reads your meter in thousands.

Please refer to the attached copy of a utility bill that was used in the calculations below as an example:

Meter dials show 325520 (this includes the pre-stamped 0)

The current/present read is recorded as **325**

The previous reported read was **321**

The difference between the reads, is the amount of gallons used during the service period of 3/18/2020 - 4/20/2020. **4000** gallons used on a 3/4" meter inside city limits

Water portion of bill:

**Please refer to current rate schedule*

Demand Fee	\$37.86	
Water Usage	<u>\$22.06</u>	4000 gallons
	\$59.92	First 2000 gallons billed at \$3.98 per thousand = \$7.96 Next 2000 gallons billed at \$7.05 per thousand= \$14.10

WasteWater portion of bill:

Demand fee	\$38.69	
Winter Averaged	<u>\$14.15</u>	Average gallons used in the recent winter months was 3667
	\$52.84	Billed at \$3.86 per 1000 gallons The winter average will remain the same until after the next winter averaging is calculated for the account.

Garbage portion of bill:

Residential Roll-out Cart
with 2 times weekly pickup **\$16.00**

Brush Chip portion of bill:
