UTILITY SERVICES POLICY

A. WATER

I. PURPOSE.

The CITY OF MCGREGOR (THE "CITY") is responsible for protecting the drinking water supply from contamination or pollution, which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions, which are in place to provide this protection. The City enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the City will begin service. In addition, when service to an existing connection has been suspended or terminated, the City will not re-establish service unless it has a signed copy of this agreement.

II. RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.

1. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the CITY by an air-gap or an appropriate backflow prevention device.
2. No cross-connection between the CITY water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
3. No connection, which allows water to be returned to the public drinking water supply, is permitted.
4. No pipe or pipe fitting which contains more than 8.0 percent lead may be used for the installation or repair of plumbing at any connection, which provides water for human use.
5. No solder or flux, which contains more than 0.2 percent lead, can be used for the installation or repair of plumbing at any connection, which provides water for human use.

III. TERMS

1. The CITY will maintain a copy of this agreement as long as the Customer is connected to the Water System at the above referenced service address.
2. The Customer shall allow his property to be inspected for possible cross-connections and other potential hazards. The CITY or its designated agent shall conduct these inspections before initiating a new water service; when there is reason to believe that cross-connections or other potential hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the CITY's normal business hours.
3. The CITY shall notify the Customer of any cross-connection or other potential hazard, which has been identified during the initial inspection or the periodic re-inspection.
4. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
5. The Customer shall, at his sale cost and expense, properly install, test, and maintain any backflow prevention device required by the CITY and State law. Copies of all testing and maintenance records shall be provided to the City of McGregor Community Development Department.
6. Deposits are not eligible to be transferred to someone else's name or account.

IV. ENFORCEMENT.

1. If the Customer fails to comply with the terms of the Service Agreement, the CITY shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection.

B. SERVICE AGREEMENT FOR ALL UTILITY SERVICES

1. I certify that I will be operating this business, or living at this address, or if not, the persons listed on page 1 of this service agreement will be living at this address, and I agree to pay for all utility services delivered to the address specified above, at the rates and fees prescribed by ordinance.
2. I agree that I will deposit the sum of \$125.00 or \$250.00 (based on payment history with City of McGregor) to guarantee payment of this account, receipt of which is hereby acknowledged, it being understood the deposit herein shall be subject to refund on termination of this account; provided, however, that all bills then due are paid in full. Deposits are not eligible to be transferred to an account in another person's name. The City further reserves the right to apply said deposit on any unpaid bills.
3. I agree that all payments due to the City for utility services be paid in full on or before the due date. The due date shall be the 10th day of each month or the next business day if the 10th falls on a City observed holiday or the weekend. All amounts due not paid on or before the 10th day of the month shall be considered delinquent and a late fee of \$25.00 shall be added to the amount due. The late fee is due immediately and shall be paid with the past due amount and if I do not pay any utility bill by the disconnection date my utility services may be discontinued and service will not be restored until all past due amounts, including late fees, and an administrative fee is paid as established by City ordinance.
4. **I understand that the water service that is being requested is subject to cutoff 10 days after the due date.**
5. I understand that pursuant to Texas Utilities Code, Chapter 182, that the CITY may not disclose a customer's personal information (individual's address, telephone number or social security number) if I indicated below that I want this information to be confidential. Please understand that there are some exceptions to this confidentiality as provided by law. Please check the appropriate box below.

- I request that my personal information maintained by the CITY of McGregor Utilities Department be kept confidential under Texas Utilities Code, Chapter 182.
- I do not request that my personal information maintained by the CITY of McGregor Utilities Department be kept confidential under Texas Utilities Code, Chapter 182.

It is understood and agreed that this Agreement is binding and in full force and effect, on the date set out below and that the CITY'S Code of Ordinances are incorporated herein as though set out in full.
